SPEAKING AND CONSULTING SERVICES

KEYNOTE SPEAKING

As a keynote speaker, Kilan engages audiences at the intersection of their passions, lived experiences, and expertise to challenge them to think of the ways that their talents can shape the future. She also emphasizes the importance of making and/or taking intentional time to nourish your full being alongside your work. She is a skilled and adaptable speaker that can serve as either orator and moderator.

CONSULTING

Kilan can conduct workshops and trainings for small groups on various topics regarding science and social change. She is particularly interested in the co-creation of innovative curricular tools that allow people to bring their lived experience (expertise) into the activity.

OUTREACH

Kilan is passionate about enhancing the representation of scientists among students at any level, broadening participation in STEM, and empowering girls, women, and people of color in their pursuit of STEM fields. She has worked for years with STEM outreach and education organizations as a speaker, curator, and moderator.

EDUCATION
